Robinson Crusoe is an adventure⁽¹⁾ story by Daniel Defoe. Robinson Crusoe was a sailor⁽²⁾. One day his ship sank⁽³⁾ because there was a really terrible storm⁽⁴⁾. Crusoe swam to a nearby⁽⁵⁾ island, but there were no other people there. Crusoe wrote a diary⁽⁶⁾ of what happened to him on the island.

18th December

I arrived on the island four days ago. Today I walked along the beach again, but I saw nobody and I think I am alone⁽⁷⁾. This afternoon I found a dead⁽⁸⁾ fish and ate it but it was not nice. Although I am hungry, I don't want to eat another dead fish!

19th December

I found a coconut⁽⁹⁾ on the beach today. It was delicious⁽¹⁰⁾. It rained last night and I was cold and wet⁽¹¹⁾, so today

I went to look for a cave⁽¹²⁾. I want a warm⁽¹³⁾ place to sleep. I walked through a jungle⁽¹⁴⁾ and there were some rocks⁽¹⁵⁾, but no caves.

20th December

I found a cave!!

Lesson 2 SB page 15

How much do you know about pyramids? Let's compare two pyramids in Egypt. **The Great Pyramid**⁽¹⁾ of Giza is 146 metres tall. It's tailer than **the Red Pyramid**⁽²⁾, which is 105 metres tall.

But the Red Pyramid is **further away**⁽³⁾ from the **centre**⁽⁴⁾ of Cairo, so it's **less crowded**⁽⁵⁾ with visitors. Because it's less crowded, it's also quieter.

Now let's compare⁽⁶⁾ two very tall buildings. The Shanghai Tower⁽⁷⁾ in China is 632 metres tall. The tower first opened in 2015. The Al Hamra Tower in Kuwait is 412.6 metres tall. The building first opened in 2011. So the Shanghai Tower is taller and more modern than the Al Hamra Tower in Kuwait.

Finally, we're going to compare two capital (8) cities. Bangkok became the capital of Thailand about 600 years ago, so it's much older than Brasilia. Brasilia is a modern city.

The Brazilians built it in 1960. More people live in Bangkok than Brasilia. The **population** ⁽⁹⁾ of Bangkok is more than 10 million. The population of Brasilia is about four and a half million.

So, how did you do? Did you get the answers correct?

1. The oldest museum in Cairo opened in 1835. There were more than 160,000 of Egypt's most valuable(1) treasures(2) on display(3). It has more space for valuable objects, more people can see them and it is able to look after⁽¹¹⁾ the objects really well.
- 3. One of the most beautiful parts of the museum is the **entrance**⁽¹²⁾, with its big **plants**⁽¹³⁾ and **statues**⁽¹⁴⁾. The biggest statue is that of Ramses II, which is 12-metres high.

- We had a wonderful holiday⁽¹⁾ in Egypt.
 These are my opinions about three of the most interesting places.
- The Valley of the Kings⁽²⁾ in Luxor is one of the most popular places⁽³⁾ for tourists⁽⁴⁾ to visit. We went early because that is the quietest time. My brother said, "This is fantastic⁽⁵⁾!" I am sure it gets busier⁽⁶⁾ later on during⁽⁷⁾ the day.
- The biggest place we went to was the Karnak Temple (8). My favourite part was the Hypostyle Hall (9), a 5,000-square- metre "room" with 134 stone columns (10). I think it was more crowded than the Valley of the Kings.
- In my opinion, the best and quietest place we visited was Habu Temple⁽¹¹⁾. It has columns similar to⁽¹²⁾ those at Karnak, but because it is less crowded, you can study them for longer.

The British Museum

- The British Museum (1) in London is the oldest public (2) museum in the world. It opened in 1759 and now has more than 13 million objects. About six million visitors go there every year.
- The museum has the biggest collection (3) of Edyptian objects outside Egypt. One of its most important objects is the Rosetta Stone⁽⁴⁾. This arrived at the museum in 1802.

The writing on the stone is in three different languages. This allowed (5) people to understand ancient Egyptian hieroglyphics (6) for the first time.

• In my opinion, the most beautiful part of the museum is the Great Court (7). Its big glass room makes it the largest covered square in Europe. It opened in 2000 so it is also the most modern part of the museum.

Dear Grandma,

We're really enjoying ourselves on holiday⁽¹⁾ in South Africa⁽²⁾! It's beautiful here and there's a lot to do.

Yesterday was an adventure⁽³⁾. We went trekking in the mountains. It was sunny⁽⁴⁾ when we started, but when we got to the

top of the mountain⁽⁵⁾ we saw dark clouds⁽⁶⁾. On the way down, the rain⁽⁷⁾ started! Then there was a storm⁽⁸⁾. The rocks⁽⁹⁾ were wet and Tamer fell over⁽¹⁰⁾ and hurt himself. But it's OK – his leg is better today.

Tomorrow the weather is going to be better, so we're going to try zip lining! I'm a bit frightened, but I'm excited⁽¹¹⁾, too.
See you soon.

Nader: My trip to the desert⁽¹⁾, by Nader.
Last weekend, we went on a trip⁽²⁾ to the desert. I woke up early and made myself breakfast⁽³⁾. Then I got dressed⁽⁴⁾. I put on my clothes and looked at myself in the mirror⁽⁵⁾. I put on a hat and sunglasses⁽⁶⁾ to protect⁽⁷⁾ myself from the sun. At the desert, we met our guide and we rode with him on our camels. My sister took this photo of herself with her camel. That night, we cooked ourselves dinner on a fire. After dinner, when it got cold⁽⁸⁾, we sat by the fire to keep ourselves warm⁽⁹⁾.

Around the world in 80 Days by Jules Verne

In 1872, the writer Jules Verne read a **newspaper article**⁽¹⁾ about a new **railway line**⁽²⁾ across India. It gave him a **great idea**⁽³⁾ for a book. He wrote a story about a **British**⁽⁴⁾ man called Phileas Fogg. He takes a **challenge**⁽⁵⁾ to travel around the world in just 80 days. This sounds easy today, but at that time, there were no cars or planes.

London to Suez, Egypt	train and ship	7 days
Suez to India	ship	13 days
India to Hong Kong	train and ship	16 days
Hong Kong to Japan	ship	6 days
Japan to the USA	ship	22 days
Across the USA	train	7 days
USA to London	ship	9 days
Leave on 2 nd October	Return on 21st D	ecember

When Phileas Fogg takes the ship back to London from the USA, there is a big storm⁽⁶⁾ at sea and he arrives in London one day late, on 22nd December. But he made a mistake⁽⁷⁾: because he travelled east⁽⁸⁾ around the world, it is one day earlier than he thought. So he completes⁽⁹⁾ his challenge on time!

Hi Dareen

• How are you? I'm really enjoying myself in Sydney with my family.

Sydney is about eight hours by car from our home in Melbourne.

Yesterday I climbed Sydney Harbour⁽¹⁾ Bridge⁽²⁾. It was very high and scary⁽³⁾. But the views⁽⁴⁾ from the top were fantastic! My sister and I took a great selfie⁽⁵⁾ of ourselves!

Tonight I am going to listen to music at the Sydney Opera House, but it is not opera, it is **classical music**⁽⁶⁾! Tomorrow I am going to the Blue Mountains. I am going to swim in a **lake**⁽⁷⁾ and go **rock climbing**⁽⁸⁾. Here are some photos!

Love, Amy

Hi Amy

Your holiday sounds fantastic⁽⁹⁾.

My family and I went to Sydney last year but we did not climb the bridge!

We went to Bondi Beach and went windsurfing⁽¹⁰⁾ and kayaking⁽¹¹⁾.

l love water sports⁽¹²⁾!

Last weekend, I watched a TV programme about Robinson Crusoe Island⁽¹⁾. The author⁽²⁾ of Robinson Crusoe, Daniel Defoe, wrote about this island because a real⁽³⁾ sailor⁽⁴⁾ called Alexander Selkirk spent⁽⁵⁾ four years alone here. Defoe wrote Robinson Crusoe after hearing about this man. However, Crusoe's adventures⁽⁶⁾ were

different to Mr Selkirk's. Crusoe spent a lot longer on the island (28 years) and the weather was a lot hotter than on the real island. Today, about 800 people live on Robinson Crusoe Island. Life is easier now, although people still have to look after⁽⁷⁾ themselves. The nearest⁽⁸⁾ land, Chile, is 24 hours away by boat. Soon they are going to build a new school and hospital on the island. Those are things that Crusoe did not have!

: Hello, welcome to our Presenter

> podcast(1): Homes of the Future. Today we have a special guest(2) - Dina Hassan. She is a famous

architect(3). Hello Dina.

Dina : Hello.

Interviewer: What does an architect do?

: Well, I design buildings (4) such Dina

as houses or schools. I think about what materials(5) to use

and I draw pictures of it.

Interviewer: What are you designing at the

moment?

: I'm working on a project (6) for houses for the future. They'll Dina

be a bit different to our houses today.

Interviewer: In what ways will they be different?

: Well, I think we'll need more gardens in the future, but there

won't be much space⁽⁷⁾. So the garden will be on the roof.

Interviewer: A garden on the roof, great!

Dina : And I think people will all use electric cars (8) in the future,

so there'll be chargers (9) for electric car next to the house.

Interviewer: How will people get their electricity?

Dina: There'll be lots of solar panels (10) and a wind turbine (11).

They'll make the electricity.

Interviewer: Great. What else will be different in 2050?

: Well, I think there will be robots to do all the housework.

Interviewer: Fantastic! Will people use drones (12)?

: Yes, I think drones will bring food and parcels (13) to the house.

Interviewer: What materials will the house be made of?

: We will use plastic bricks (14) that are very strong. We'll also

use a lot of glass and metal. Look, here's a picture of what

it will look like.

Interviewer: Oh it's beautiful. Thank you very much Dina for talking to

us. I think I'll like living in this house!

Holidays on the moon

In 2080, you won't go to the beach for your holiday⁽¹⁾. You will go to the moon! There will be rockets⁽²⁾ that leave Earth⁽³⁾ every day, and the journey⁽⁴⁾ will take only 12 hours. They will be very fast!

Driverless cars

In 2080, people won't drive a car. We will all have a driverless car⁽⁵⁾. They will be safer⁽⁶⁾ and there won't be any accidents⁽⁷⁾. Students will read a book or watch TV when a computer on the car drives them to school!

Answer

the following questions :

- Critical thinking skill

مهارة التفكير النقدى

(5) سيارة بلا سائق(6) أكثر أمانًا

ධාන්ත (7)

An igloo(1) in Canada

A round house in Burkina Faso

A yurt(2) in Mongolia

A round house in Siwa

Round houses around the world

Many traditional⁽³⁾ houses in the past were round. Today, many modern⁽⁴⁾ houses are also round. Why is this ? There are lots of reasons⁽⁵⁾!

(1) منزل من الجليد (2) خيم دائرية الشكل تستخدم كمنزل متنقل (3) تقليدي (4) حديث (5) أسباب / مبررات

A round shape⁽⁶⁾ means the building is very strong. This is important when there is an earthquake⁽⁷⁾ or in strong winds⁽⁸⁾. Also, heavy snow⁽⁹⁾ or rain⁽¹⁰⁾ will fall from the roof. A round house is also easier to keep warm⁽¹¹⁾ or cool. It is also quieter inside a round building than a building that is a rectangle⁽¹²⁾ or square⁽¹³⁾

Finally, a round building uses fewer materials (so it is **cheaper to** make⁽¹⁴⁾). It also has more space inside. How fantastic!

C. Reading Comprehension

Read the following, then answer the questions:

Many traditional houses in the past were round. Today, many modern houses are also round. Why is this? There are lots of reasons! A round

shape means the building is very strong. This is important when there is an earthquake or in strong winds. Also, heavy snow or rain will fall from the **roof**. A round house is also easier to keep warm or cool. It is also quieter inside a round building than a building that is a rectangle or square. Finally, a round building uses fewer materials, so it is cheaper to make. **It** also has more space inside. How fantastic!

Marwan is a very **smart** boy in the third grade. He always remembers his homework and does well in all of his tests. Last Sunday, he woke up late and quickly left his house. When he arrived at school, he noticed that his homework was not in his school bag. Marwan was upset because his teacher, Mrs Maha, gets angry when students don't do their homework. He started to get worried but <u>he</u> decided to be brave and apologize to his teacher and tell her he won't do that again. Mrs Maha wasn't angry as she knows that Marwan is a good student.

Dangers(1) of the sea

The shark is one of the most dangerous sea animals in the **ocean**⁽²⁾. If it **loses**⁽³⁾ a tooth, a new one **grows**⁽⁴⁾. A shark uses more than 20,000 teeth in its life!

So how do fish and **sea animals**⁽⁵⁾ **protect**⁽⁶⁾ themselves from danger? A **stingray**⁽⁷⁾ is a big, **flat**⁽⁸⁾ fish and it lives in the coral reef. If it knows a shark is coming, it jumps out of the water!

A **sea turtle**⁽⁹⁾ has a hard **shell**⁽¹⁰⁾ to protect it. Other animals can swim very fast - the **octopus**⁽¹¹⁾ has got eight legs to help it!

Some sea life, like the **jellyfish**⁽¹²⁾, is **poisonous**⁽¹³⁾. It **stings**⁽¹⁴⁾ you when you touch it.

What about the **whales**⁽¹⁵⁾? These big, heavy animals hit with their big **tails**⁽¹⁶⁾!

We must save(1) our planet(2)!

Plastic (3) is everywhere! We use it for many different things. The problem is, plastic stays in the environment (4) for a very long time.

Some of the plastic people find on beaches is about 100 years old! We can recycle (5) some plastic, but most of it goes into the ocean. Plastic is poisonous when animals eat it. Every year, more than 100,000 sea animals and birds die from plastic.

We must try to use other materials (6) paper and glass, for example - because these are easier to recycle.

When we use a plastic shopping bag, we mustn't throw away these bags in rivers.

It will take a long time to clean all the plastic rubbish (7) from the beaches and the ocean. But we mustn't stop trying to help our planet!

Child: What should I do first?

Adult: First, wash an empty plastic pot⁽⁶⁾ and dry⁽⁷⁾ it. Secondly, put some small stones⁽⁸⁾ at the bottom of ⁽⁹⁾ the pot.

Child: Then what should I do?

Adult: Then, fill the pot with soil (10).

Child: Like this?

Adult: Yes, that's right! The next thing you do is, **press**⁽¹¹⁾ your finger into the soil and make a small **hole**⁽¹²⁾.

Child: How deep must it be?

Adult: It must be 2 centimetres deep. Now plant the seed in the hole and cover it with soil. Finally, put the pot outside in a warm place⁽¹³⁾. The seed needs sun and water to make it grow.

Child: Should I water it now?

Adult: Yes, now and every day. But don't give it too much water. It's going to grow big. When it grows too big for the pot, take it out of the soil and plant it in the ground. One day, when it is a big tree, you can say "I planted that!"

C. Reading Comprehension

Read the following, then answer the questions:

Plastic is everywhere! We use it for many different things. The problem is, plastic stays in the environment for a very long time. Some of the

plastic people find on beaches is about 100 years old! We can **recycle** some plastic, but most of it goes into the ocean. Plastic is poisonous when animals eat it. Every year, more than 100,000 sea animals and birds die from plastic. When we use plastic shopping bags, we mustn't throw away these bags in rivers. We must try to use other materials – for example paper and glass, because **these** are easier to recycle. When we use a plastic shopping bag, we should try to use it more than once.

It will take a long time to clean all the plastic rubbish from the beaches and the ocean. But we mustn't stop trying to help our planet!

My **predictions**⁽¹⁾ for the future

By Ahmed

In the next 30 years, there will be a lot of changes⁽²⁾ in our lives. **Technology**⁽³⁾ will **make our lives easier**⁽⁴⁾ and more interesting. Our phones will be even more important and we will have apps⁽⁵⁾ for everything.

Scientists will find new cures⁽⁶⁾ for illnesses⁽⁷⁾ so people will live longer. Some illnesses will disappear⁽⁸⁾ completely⁽⁹⁾.

All our cars will be **electric**⁽¹⁰⁾. If this happens, it will be much better for the **air**⁽¹¹⁾ in our cities, won't it? I don't think I will have to learn to drive because cars will drive themselves!

There will be a lot of interesting new jobs for people. Robots⁽¹²⁾ will do some of the jobs that people do today. But I don't think we will have robot doctors or teachers!

In the past, many people had **traditional jobs**⁽¹⁾ that people still do today. There were many teachers and bakers, for example. However, some jobs are quite new, aren't they?

For example, an **aeronautical engineer**⁽²⁾ is a person who designs things that fly. If you want to become an aeronautical engineer, you will have to study science. It is not an easy job, but it is very interesting. If you want to help **future technology**⁽³⁾, perhaps you will design **drones**⁽⁴⁾.

Many people think that drones will carry our **post**⁽⁵⁾ in the future. That will make the **skies**⁽⁶⁾ above our cities interesting, won't it?

There are lots of different styles of music such as classical, jazz and opera. Did you know that people first watched the famous opera Alda, by Giuseppe Verdi, in Cairo in 1871?

You can often hear music at weddings and other celebrations. Egypt also has a lot of traditional music. You can hear it from Alexandria to Aswan. In traditional music you can hear instruments like drums and the ney. The ney is a type of flute. Another traditional instrument is the qanun. This is a string instrument that you play with your fingers. You can also hear the violin ...

... and the oud. The oud is similar to the guitar, but it usually has more strings.

You can also hear these instruments in many other countries.

Do you like music? What styles of music do you like?

Lesson 6 SB page 20

Do you know about the seven wonders of the ancient world?

People thought that they were the most fantastic buildings in the world. Many of them were in or near Egypt.

For many centuries, this Lighthouse of Alexandria was the tallest building ever made.

The sea was dangerous for boats because there were a lot of rocks near Alexandria. The lighthouse warned boats about the rocks. This was a very important invention.

We use similar technology today. We still

use lighthouses to warn boats about rocks. Boats are safer now, thanks to the work of the ancient Egyptians.

The Hanging Gardens of Babylon were probably in modern day Iraq. These were beautiful gardens around a huge palace.

The Statue of Zeus was in ancient Greece. This was believed to be the biggest statue in the world. Another wonder of the world was the Colossus of Rhodes. This was another big statue in ancient Greece.

The Ancient Greeks also built the Temple of Artemis... and the Tomb of Mausolus.

Time and earthquakes destroyed most of these wonders of the world.

After an earthquake in Alexandria, they built Fort Qaitbay at the same place as the Lighthouse of Alexandria and used many stones from the same building.

Today, only the Great Pyramid of Giza remains. Experts believe that this was the first ancient wonder because it is older than the others.

Every year, millions of people come to see the Pyramids of Egypt. They are some of the most visited tourist attractions anywhere.

For many people, the Great Pyramid of Giza is also a wonder of the modern world.

Which building do you like the best? Why?

Lesson 5 SB page 29

There are many sports that people enjoy today, such as hockey, athletics, and archery. But did you know these sports, and many others, were first played in Ancient Egypt? Very old drawings and paintings show people playing a lot of different sports.

This picture in the Temple of Ramses III shows people fencing with sticks. In fencing

today, two people fight each other with swords.

The Ancient Egyptians also liked running. During the time of King Taharka, there was a race of 100 kilometres.

People believe that this was a test so that the king could find his best soldiers. Today, there is a race called the Pharaonic Race. This, too, is 100 kilometres. It starts at the Hawara Pyramid and finishes in Saqqara. Running is very popular today. Millions of people around the world go running every week. It is a good way to stay healthy.

Some people think the ancient Egyptians played tennis, because there is a town near the Nile called Tinnis... and because the Arabic word for part of the hand is rahat al-yad. This sounds like the racket you hit the ball with.

Sport was very important in Ancient Egypt. Is sport important for you?

Lesson 3 SB page 39

Do you live in a village or in a city? And do you live on the coast, near the sea or in the desert? There are often different houses for each place. This house is a traditional Nubian house. The floors are made of sand and there is normally a bench outside each house to sit on. This is made of mud.

These Nubian houses are in Aswan. They're very colourful.

There are paintings on the walls of Nubian houses of things like fish, crocodiles and palm trees.

The door of each house usually faces south. This is to protect people from the strong wind from the north. Houses will probably be different in the future. Many houses will be made of recycled material or

natural material, like wood.

This hotel is in Siwa and it's made of natural materials.

The roof is made of palm trees.

Many houses in the future will use the sun for electricity.

This is called solar power.

What type of house do you want to live in? Is it a house?

Or is it an apartment? There are lots of different places to live.

Lesson 3 SB page 49

From the camel to the beautiful desert cat, or caracal to the Nile crocodile, there are many animals in Egypt. But some animals are in danger of extinction. This means that every example of the animal will die. The Dorcas gazelle lives in the Sinai Peninsula and in other parts of North Africa. It eats plants and you can sometimes see them early in the morning and late in the evening. The animal is in danger because some people want to eat it.

In the past, the Barbary sheep lived all over the country. It eats plants, but warmer weather means the sheep find it harder to find food. Today, you can only find them in the mountains of southern and western Egypt.

The striped hyena looks like a dog. You can only see it at night. It eats other animals. People think that there are only a small number of striped hyenas in Egypt.

One of the most unusual animals is the dugong. This animal lives in the Red Sea and other places. It is also called the sea cow. This is because it only eats plants that grow underwater.

The dugong is in danger because there is

plastic and other pollution in the sea. Also, there is not much food in the sea for it to eat.

Today, there are some organisations that want to help these and other animals that are in danger, like this turtle. It is helpful for animals when we take rubbish from the beaches. We must all do what we can to help to protect nature.

Lesson 4 SB page 60

What job will you do when you are older? Will you be an engineer, who designs exciting new things? Will you be a doctor, who looks after sick people? Or will you be an architect, who designs new buildings and even cities? These will all be important jobs in the future. But did you know that the Ancient Egyptians did many of these jobs too? They helped to form the world we know today. Engineers in ancient Egypt designed and built a lot of things, like boats.

These boats used the wind to help them travel to other parts of the world.

The Ancient Egyptians also learned how

to move water from one place to the next. This helped farmers who worked far from the Nile. We use similar ideas to help farmers today.

A doctor was a very important person in Ancient Egypt. The doctor used a lot of different tools. We can see some of them in this picture. The Ancient Egyptians also had dentists.

In the tenth century, an Egyptian doctor invented the first kind of syringe. Today, doctors and scientists use syringes every day.

Imhotep was the world's very first architect. He designed a new way of building pyramids using stone. He built the Pyramid at Saqqara using this method. He also used it to build the Great Pyramid at Giza. Imhotep also used stone to build columns. These columns made buildings very strong. Before this, the Ancient Egyptians used mud and plants to build columns. These columns sometimes fell down. But every job can be important. If you do your job well, you can help to make a better world.

Robinson Crusoe was a sailor. His ship sank because there was a bad storm. Crusoe swam to a nearby island, but there were no other people there. He walked along the beach, but he saw nobody. He thought that he was alone. He found a fish and ate it. He looked for a cave to sleep in. He found a coconut on the beach. It was delicious. He wrote a diary of what happened to him. I think it is an exciting story. You can borrow it.

"Round houses"

Many houses in the past were round. Today, many modern houses are also round. This is important when there is an earthquake or a strong wind. A round building means that the building is very strong. Also, heavy snow or rain will fall from the roof. A round house is easier to keep warm or cool. It is quieter inside than a building that is a rectangle or a square. A round house is cheaper because building a round house uses fewer materials.

Dear Sami

I'm staying with my uncle in London! I travelled to his house by train. London is very big and the streets are always busy. My uncle says that some people in London are not friendly, but I like the people here. Today, we visited a museum. It has big windows, so the rooms are very light. Some people don't like museums, but this museum was very interesting for me.

Yesterday, we walked up a hill in a park. I saw all of London from there. There are some modern skyscrapers in London, but most of the buildings are **low** and not very tall.

Regards,

Ali

Dear Ghada,

How are you and your family? Do you like reading stories? Last month, I read a story. It is called Robinson Crusoe. Robinson Crusoe is an adventure story by Daniel Defoe. Robinson Crusoe was a sailor. His ship sank because there was a bad storm. Crusoe swam to a nearby island, but there were no other people there. He walked along the beach, but he saw nobody. He thought that he was alone. He found a fish and ate it. He looked for a cave to sleep in. He found a coconut on the beach. It was delicious. He wrote a diary of what happened to him. I think it is an exciting story. You can borrow it.

Subject: planting trees

Dear Fady,

How are things with you? I want to tell you about the importance of trees and how we can plant them. We plant trees to keep our environment clean. Trees make the air healthy. There are many steps to plant a tree. First, wash the plastic pot and dry it. Second, put some small stones at the bottom of the pot. Press your finger to make a hole and put the seed in the hole and cover it with soil. Finally, put the pot outside in a warm place. Water it every day but don't give it too much water. When the tree grows too big for the pot, plant it in a bigger pot, or in the ground. Let's plant a tree in the garden together.

Yours,

Omar

Egypt is a very beautiful country. Many tourists come to visit Egypt all year round. Egypt has very nice weather. In summer, tourists can go to Alexandria. They can see the lighthouse and enjoy the sea **there**. In winter, they can go to Aswan. They enjoy the warm weather there. There are many interesting things which tourists can see in Egypt. They can see the pyramids, the zoo and many museums in Cairo. Last Friday, my pen-friend Robert came from England to visit Egypt. He went to Aswan by train. He stayed at a nice hotel. Read the following, then answer the questions:

New technology means that forms of communication are changing all the time. For example, think about how phones have developed over the last 20 years. In the past, people used to type messages using special letters on their phones. Then, people started to touch the screens on their phones to type their messages.

Now phones are able to understand people's voices and many people are using their phones to send messages. Some scientists think that phones are going to know what people think in the future. Perhaps our phones will read our <u>facial</u> expressions before <u>they</u> send a message!

C. Reading Comprehension

Read the following, then answer the questions:

Many traditional houses in the past were round. Today, many modern houses are also round. Why? There are lots of reasons. A round shape means the building is very strong. This is important when there is an earthquake or strong winds. Also, heavy snow or rain will fall from the roof. A round house is also easier to keep warm or cool. It is also quieter inside a round building than a building that is a rectangle or a square.

Finally, a round building uses fewer materials and less time, so it is cheaper to build it. <u>It</u> also has more space inside. A round building is easier to heat and to keep warm. People prefer to live in a round house because it is comfortable. How fantastic!

Dolphins are very intereseting animals. They look like fish, but they aren't fish. Fish can live under water, but dolphins cannot. They can stay under water for a long time, but they have to come out of the water to breathe air. Fish lay eggs, but dolphins give birth to babies. Dolphins have big mouths, and lots of small sharp teeth. They use their teeth for catching fish to eat. Everyone likes dolphins because they are clever and learn to do many things fast. They can jump high in the air. Some dolphins have been learnt to pull a boat.

C. Reading Comprehension

Read the following, then answer the questions:

A desert is a very dry place. It has very little rain. Some deserts are sandy. Some deserts are rocky. Other deserts have mountains. In the desert, it is very hot during the day and very cold at night. Sometimes you can find water underground. It can be very windy in the desert, too. In sandy deserts, the wind blows the sand and makes big shapes like mountains. People often travel in the desert on camels. These animals can drink a lot of water very quickly and **they** don't need to drink for a very long time because they **store** water in their bodies.

4 Read the following passage, then answer the questions:

Last weekend, I watched a TV programme about Robinson Crusoe Island. The author of Robinson Crusoe, Daniel Defoe, wrote about this island because a real sailor called Alexander Selkirk spent four years alone there.

Defoe wrote about Robinson Crusoe after hearing about this man. However, Robinson's adventures were different to Mr. Selkirk's, Crusoe spent a lot longer on the island (28 years) and the weather was a lot hotter than on the real island. Today, about 800 people live on Robinson Crusoe Island. Life is easier now. The nearest land, Chile, is about 24 hours away by boat. Soon, they are going to build a new school and hospital on the island. Those are things that Crusoe didn't have!

Crusoe spent much longer on the island (28 years) and the weather was much hotter than on the real island. Today, about 800 people live on Robinson Crusoe's Island. Life is easier now, although people still have to look after themselves. The nearest land, Chile, is 24 hours away by boat. Soon they are going to build a new school and a hospital on the island. Read the following passage, then answer the questions:

We had a wonderful holiday in Egypt. These are my opinions about three of the most interesting places. The Valley of the Kings in Luxor is one of the most popular places for tourists to visit. We went early

because that is the quietest time. My brother said, "This is fantastic!" I am sure it gets busier later on during the day.

The biggest place we went to was the Karnak Temple. My favourite part was the Hypostyle Hall, a 5,000-square-metre "room" with 134 stone columns. I think it was more crowded than the Valley of the Kings.

In my opinion, the best and quietest place we visited was Habu

Temple. It has columns similar to those at Karnak, but because it is less crowded, you can study them for longer.

Plastic is everywhere! We use it for many different things. The Problem is, plastic stays in the environment for a very long time.

Some of the plastic people find on beaches is about 100 years old! We can recycle some plastic, but most of it goes into the ocean. Plastic is poisonous when animals eat it. Every year, more than 100.000 sea animals and birds die from plastic. Dolphins and sea birds also swim into

We must try to use other materials such as paper and glass, for example, because these are easier to recycle.

When we use a plastic shopping bag, we should try to use it more than once. We mustn't throw away these bags.
